The Strait of Gibraltar is famous as a major point of passage for Palaearctic birds migrating between their European breeding grounds and their winter bird migration in the strait of Gibraltar | Birdwatching Spain

Due to its geographical position between the two continents, and the Atlantic Ocean and the Mediterranean Sea, the Strait of Gibraltar is a strategic point for migratory birds, including seabirds. Many different groups of birds use this flyway. However, the Strait is probably best known by the large number of soaring birds.
