Without energy we would have no warm homes, no hot water for showers, and no electricity to keep food chilled, operate appliances or allow us to work at the computer. Up to now our economy has been driven and our homes made comfortable by oil, coal and gas. Slowly but surely, these natural resources are running out. If we want to [World Energy Resources](#)

The World Energy Resources (WER) is a unique World Energy Council study covering 13 key energy resources and three cross-cutting topics. It is an indispensable tool for energy sector planners and executives, which provides a solid basis for strategic decision-making.
