[Essential metal for plants | Science](#)

Plant Science Although zinc (Zn) is an essential micronutrient for plants and humans, much of the world's agricultural land is deficient in Zn. Sinclair et al. studied plants that are unable to deliver Zn into their own xylem. The plant shoots were thus internally starved regardless of whether Zn was available from the root. The Zn-starved. Essential science: What is the future of lab-grown meat?

Essential science] Brain inflammation is present in brains of autistic patients. Neurons often have extensive networks of dendrites, which receive synaptic connections.
