Defining indigenous knowledge -

<https://theoryofknowledge.net>

Defining indigenous knowledge The best way to begin our understanding of indigenous knowledge is by considering its source: indigenous peoples and their societies. This means trying to take in what the United Nations estimates as more than 370 million people spread across at least 70 different countries. This clearly presents us with problems if we want to avoid falling into the trap of generalizing and simplifying the knowledge systems that characterize them.
