Oil and Gas, Technology and Humans: Assessing the Human ...

The oil and gas industry is going through a major technological shift. This is particularly true of the Norwegian continental shelf where new work processes are being implemented based on digital infrastructure and information technology.

Oil and Gas, Technology and Humans: Assessing the Human ...

The contents of this book were produced within the Interdisciplinary Risk Assessment in Integrated Operations addressing Human and Organisational Factors' (RIO) research project. The RIO project aimed to develop a better understanding of how to assess risk associated with the changes brought about by the introduction of IO in the Norwegian oil and gas industry. A requirement of the project was to establish guidelines based on theory, modelling and logical frameworks.
