Positive Ethics in Economics: Volume 14, Praxiology: The ...

While normative ethics moralizes economics, trying to render it more "just," positive ethics is first and foremost a model for the construction of theoretical economic reasoning. It reflects on ethical practices within economics, and introduces a model of reasoning that takes individual ethical behavior and its aftereffects into account.

Positive Ethics: Themes and Variations - Oxford Handbooks

Positive ethics might also contribute to a greater degree of openness so that psychologists feel freer to seek the assistance of others. We discuss several major trends in the literature under the themes of self-awareness, professional awareness, and global awareness. Self-awareness includes understanding our own values and motives.
