Reproductive health, economic growth, and poverty reduction in Africa : frameworks of analysis

Gender, Growth, and Poverty Reduction - The World Bank

gender inequality significantly constrains economic growth, and hence poverty reduction in Africa. One of the tasks of the Poverty and Social Policy Working Group of the Special Program

Population, poverty and economic development

By drawing on these examples, as well as Africa's own success stories, and by recognizing the link between demography and economic development, African leaders and policymakers can devise integrated economic development strategies that give a prominent role to population policies that include strong reproductive health and family planning programmes.
